

DESCRIPTION

SSDP Slim Type Air Vents are low profile and cost-effective air vents which provide:

- Good EMI Shielding
- Optimum air flow

APPLICATION

SSDP Slim Type Air Vents can be used where both air flow and EMI Shielding are required. They can also be accommodated easily where there is a space constraint.

TECHNICAL SPECIFICATION:

Parameter	Specification
Frame	Al Alloy 6063
Shielding Screen	Ni-Cu alloy
EMI Gasket	<ul style="list-style-type: none"> • Dual Type • Conductive Fabric
Elastomer	<ul style="list-style-type: none"> • NBR Foam • Silicone Foam
Wire Mesh	Tin plated Cu
Finish	Chromate

EMI SHIELDING PERFORMANCE:

Frequency	Shielding Effectiveness (dB)
1MHz	90
10MHz	50
